to our Rose Friends

Again we invite you to visit our 88-acre Rose Nursery located on Highway 8, just west of Portland, between Beaverton and Hillsboro. (See map, page 15.)

Located in the center of our nursery is our new modern warehouse, office and display area. (See picture inside back cover.) Here we sell roses every month of the year—DORMANT BARE-ROOT PLANTS are shipped to every State in the U.S. in the period between November 1st to May 1st; POTTED ROSES (in extra large fibre containers) are available for pickup at the nursery only from May 1st until late October, at slightly higher prices. (We do not ship potted roses as freight would be prohibitive.)

(Mrs. and Mr.) Julia and Henry Hausch

Some items are in limited supply this year, and these are listed in the "Exhibitor's Corner" on page 7. ORDER EARLY to avoid disappointment, and PLEASE LIST ALTERNATE VARIETIES acceptable to you on orders placed after February 1st, as some varieties sell out early.

DORMANT ROSE PLANTS — Please read before ordering by mail

-GUARANTEE — We have been commercial rose growers for 24 years, and ship roses to all parts of the United States, Hawaii and Alaska.

Our Oregon-Grown roses are of finest quality, selected 2 yr. No. 1 grade plants, budded on our own special strain of Multiflora Japonica root stock for extra vigor and long life, and for a strong fibrous root system.

If any rose purchased fails to start growing the first Spring after being properly planted and cared for, we will replace free of charge. **This free replacement policy does not include packing and shipping charges**, which is 50c per plant. Any claims for adjustment must be made with us on or before July 1st on purchases made the preceding Fall or Spring. In no event will we be liable for more than the original purchase price.

NOTE: We should not be expected to replace stock that you have neglected, planted in a wet place, subjected to 2-4-D or that has been destroyed by extreme weather conditions.

SUBSTITUTIONS — We never substitute unless advised to do so. However, due to unforeseen circumstances, or unknown demands, we cannot always supply all the varieties you order. To eliminate correspondence and delay, please indicate if we may substitute varieties of equal or more value in the same color range as ordered, or list one or two substitute varieties acceptable to you.

SHIPPING — Our new rose crop is available about November 1st, at which time we commence shipping, and continue through the first of May for colder areas.

All Dormant Roses shipped out will be top quality, 2 yr. No. 1 grade, the finest available, moderately pruned for planting. In the early Spring, all newly planted bush roses should be cut back to six or eight inches of top; climbers to 18 inches, with the top bud pointing outward.

MINIMUM MAIL ORDER — 3 Roses (or \$3.90). There is no minimum order for pickup at our nursery.

All dormant plants are shipped by parcel post **prepaid to your door**, but due to increased shipping costs, we find it necessary to make a **flat handling charge** of 50c per mail order to one address. This applies whether the order is for 3 plants or 50. You pay only 50c per order . . . we pay the rest.

Exception—POSTPAID in Greater Portland area. No handling charge.
